PETITION FOR LEAVE TO AMEND
AND AMENDMENT

Lauryn Broadcasting Corporation ("Lauryn"), by Counsel, and pursuant to §73.3522(b) of the Commission's Rules, as well as the *Hearing Designation Order, DA 92-1733 (released January 21, 1993)* hereby submits the instant Petition for Leave to Amend and Amendment with respect to FM Translator Station K201AR at Banning, California. In support hereof, Lauryn submits the following:

1. Submitted herewith is an Amendment to Lauryn's application which demonstrates that the operation of Lauryn's

No. of Copies rec'd 046
List A B C D E

proposed FM facilities would have no adverse effect upon the operation of nearby FM Translator Station K201AR at Banning, California./¹

2. Inasmuch as Paragraph No. 3 of the *Hearing Designation Order* requires Lauryn to submit this Amendment, good cause exists for its acceptance by the Commission. Lauryn has acted with due diligence to prepare and file this Amendment as soon as she was ordered to do so./² Acceptance of this Amendment will not result in comparative upgrading of Lauryn's application. The Amendment will not necessitate the addition of any party or issue to this proceeding, it is not

¹/ The copy of the signed Amendment and associated technical statement are facsimile copies of the originals. The original Amendment letter and original technical statement will be filed within the next few days.

²/ Up until about ten days ago, Lauryn (and Barbara Brindisi) were expecting to file an amendment to specify a new transmitter site in an effort to accommodate Kay Sadlier-Gill's operations of KATY-FM at Idyllwild, California, and concomitantly sever Kay Sadlier-Gill from this proceeding. If Lauryn were to have filed such a site change amendment, these matters with respect to K201AR would have been addressed therein. However, when Kay Sadlier-Gill decided to file an amendment to specify a new transmitter site for KATY-FM, Lauryn and Brindisi were permitted to remain at their respective original sites. Accordingly, Kay-Sadlier Gill's late-stage change in strategy forced Lauryn and Brindisi to quickly address the K201AR matters with respect to their original sites. According to the *Hearing Designation Order*, these K201AR amendments were due to be filed on or before February 22, 1993 (since the real due date of February 20, 1993 fell on a weekend). It is hereby noted that Brindisi filed her amendment on February 23, 1993, one day late. Lauryn's instant amendment is also being filed slightly past the deadline. But, considering the delay was a result of all the parties attempting to sever Kay Sadlier-Gill from this proceeding, Lauryn hereby submits that she acted as diligently as possible, under the circumstances.

unfair to the other parties, nor will it cause delay or disruption to the proceeding.

WHEREFORE, the foregoing premises considered, Lauryn respectfully requests that the instant Petition for Leave to Amend be GRANTED, and that Lauryn's associated Amendment be ACCEPTED.

Respectfully submitted,

LAURYN BROADCASTING CORPORATION

Re: BPH-910703MJ
Beaumont, CA
(MM Docket No. 92-310)

Dear Madam Secretary:

Lauryn Broadcasting Corporation hereby amends its above-referenced application with the submission of an engineering statement regarding the effect her proposed station would have on FM Translator Station K201AR.

Sincerely,

Lauryn Nicole Cox
President

AMENDMENT TO APPLICATION
LAURYN BROADCASTING CORPORATION
BPH-910703MJ
NEW FM - CH 265A
BEAUMONT, CALIFORNIA
February 1993

TECHNICAL STATEMENT

This Technical Statement supports the amendment to the application of Lauryn Broadcasting Corporation ("Lauryn") for a new FM Broadcast Station to operate on Channel 265A at Beaumont, California.

In response to the Hearing Designation Order released January 21, 1993, the Commission expressed concern that the proposed facility would interfere with a FM translator station K201AR, Banning, California (BLFT-861110TB). It is proposed to locate the Channel 265A antenna on the same existing tower as the translator. The FM antenna will be located at 12.19 meters above ground level while the translator antenna is located 5.97 meters above ground level. There will be no reaction between the proposed antenna and the translator antenna. The transmission line for the FM station can be located so as to minimize any effect this transmission line will have on the translator antenna.

It is, therefore, our belief that the facility proposed by Lauryn will not affect the operation of K201AR.

Lauryn has already stated in Exhibit #3 of its application that it will follow the guidelines of §73.318 of the Commission's Rules to follow good engineering practices to satisfy any complaints.

We have tried to be as accurate as possible in the preparation of this report. Should there be any questions concerning the information contained herein, we welcome the opportunity to discuss the matter by phone (912) 638-5608.

AFFIDAVIT AND QUALIFICATIONS OF CONSULTANT

State of Georgia)
St. Simons Island)
County of Glynn) ss:

WILLIAM G. BROWN being duly sworn, deposes and says that he is a broadcast technical consultant and is an officer of Bromo Communications, Inc. Bromo has been engaged by Lauryn Broadcasting Corporation to prepare the attached Technical Exhibit.

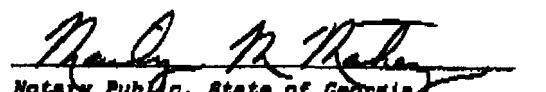

His qualifications are a matter of record before the Federal Communications Commission. He has been active in broadcast engineering since 1957.

The attached report was either prepared by him or under his direction and all material and exhibits attached hereto are believed to be true and correct.

This the 24th day of February, 1993.
